The 40th Anniversary of

"SALADA" TEA

For 40 years SALADA has given the finest quality in tea. Present prices are the lowest in 15 years.

Cellophane.

Notwithstanding the present state of financial and economic uncertainty prevailing throughout the world, resulting, as it does, in huge business losses, unemployment, and much suffering, which, in turn, leads to general discouragement, the fact remains that the world continues to progress, and when we overcome our present difficulties, and proceed to profit by the lessons of this experience through which we are now passing, the world will be a better place than ever before.

The work of the scientists proceeds apace, important discoveries which will have a far-reaching effect throughout the years to come are being made, new inventions are developed, and brought to a high state of efficiency, — all of which will add to the sum total of human comfort, convenience and prosperity in future years.

Let us take just one example, and it is one in which Canada should be especially interested and from which it will unquestionably largely benefit. — Canada enjoys vast forest wealth. It is one of the richest countries in the world in this respect. For many years the forests of Canada were looked upon as yielding wealth in only one form, namely, lumber. And even in this crude form billions of wealth were produced. Later, the value of our forests as a source of supply for the making of pulp, out of which paper is manufactured, came to be realized, and inasmuch as there are great rivers and waterfalls adjacent to many of our great forest areas, Canada in a few short years became one of the largest manufacturers of newspaper paper in the world, and is today the largest exporter of that everyday article of use.

Scientific men kept on working, and now the spruce trees of Canada not only supply us with lumber, and the countries of the world with paper, but from these same trees comes rayon silk, now manufactured in such quantities that silk hosiery, silk underwear, silk blouses, and many other articles of wearing apparel are worn by the masses of the people, instead of being a luxury only for the rich.

Nowadays when you buy a cigar you find it wrapped up in a little humidor all its own. In a smooth, glossy, transparent, but tough kind of material, which is both moisture and dust proof. Candles, cakes, razor blades, cosmetics, articles of clothing, fruits and spices, in a word, almost everything which is it vitally important that the article should be kept clean, fresh and sanitary, comes to you wrapped in this substance, called cellophane.

And what is cellophane, which has almost overnight come into such general use? It is the old spruce tree, a new form in fact, cellophane and rayon silk is one and the same thing, the only difference resulting from the methods of manufacture. The magazine of Canadian Industries Limited, manufacturers of both rayon and cellophane, explains, as follows: "Basically, cellophane is the same as artificial silk differing from it only in the form it takes when it reaches the casting stage, where cellophane is cast in a sheet while the silk takes the shape of fine threads.

Not only is cellophane light in weight, sanitary in that it is dust proof and moisture proof, but because of its transparency it shows off the goods so wrapped, and thus becomes a sales agent. Tests have demonstrated that articles and products cellophane-wrapped command a much larger sale than the same articles when not so wrapped.

The use of cellophane is still in its infancy, but Canadian Industries Limited have such faith in it that they have erected a million and a quarter dollar cellophane plant in the Province of Quebec. Women's hats are now made of braided, colored cellophane as one new use of the article, but what does the future hold? Will it be developed so that we can write on it with indelible ink and thus enable us to preserve records far beyond the life of ordinary paper? Who can tell, but without a doubt it will be used for many purposes at present unknown to us.

Thus does the world progress, even during times when seemingly things are slipping backward. There are always reasons for encouragement and confidence if we take the trouble to look for them. Cellophane is but an illustration, but in itself it means an entirely new industry, putting to more profitable use one of Canada's great natural resources.

Siamese Twins

Railways Undecided As To Whether They Should Charge One Or Two Fares

Siamese twins, always an attraction at fairs and exhibitions, have now attracted the attention of the railway companies as of the number of tickets required for their transportation. The Canadian National is required to submit its views on the subject to various quarters in Chicago, who point out that there are conflicting legal opinions by U.S. laws. One railway, through its law department, says Siamese twins, although two persons and possessing individual faculties, are one inseparable human entity. They are so joined together that competent medical authorities have ruled that when one dies the other must die. Wherever one goes, the other must go. Therefore one fare is valid for their transportation. The legal department of another railway holds that two tickets are required and rules the subjects are designated as twins and they have all the physical characteristics of separate individuals.

Canadians Like Cereals

Canadians are very fond of prepared breakfast cereals, and according to most recent statistics consumed nearly six million dollars worth of such prepared cereals in 1930. This was in addition to large quantities of old-fashioned porridge made out of oatmeal and rolled oats. Exports of Canadian manufactured breakfast cereals in 1930 amounted to nearly two and a half million dollars while imports were valued at around one-quarter of a million dollars.

Motion picture theatres in India, Burma, and Ceylon now number 675.

Sharp Pains In His Heart Nerves In Bad Condition

Mr. Fred J. Chase, Thomson Station, N.S., writes: "I have used Milburn's Heart and Nerve Pills with wonderful results. My heart would beat so fast I would have to sit down when at work chopping in the woods. I had sharp pains in my heart when I would lie down at night. My nerves were also in a very bad condition, but after using two boxes of Milburn's Heart and Nerve Pills I feel just fine, and am fourteen pounds heavier than I have been for years."

Price 50c a box

Sold at all drug and general stores, or by mail direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Mountain Pilgrimage

Yearly Pilgrimage To Shrine Of St. Patrick On West Coast Of Ireland

Perhaps the most unusual of all pilgrimages is that made annually to the mountain-top shrine of St. Patrick on the high, bare, cone-shaped mountain which bears his name and which overlooks Clew Bay, County Mayo, on the west coast of Ireland. Additional interest is lent to the pilgrimage this year because the ceremonies to be held on Sunday, July 31st, will celebrate in honor of the 1500th anniversary of the arrival of St. Patrick in Ireland.

The pilgrimage is made yearly by many Canadians and Americans, many in fact that the Cunard Line for several seasons has devoted a special sailing to this purpose, the ship calling at Galway, a short distance from Westport, the starting point for the gruelling, rocky climb up the mountain, and on to Croagh Patrick, whose peak stands 2510 feet above the level of the sea.

According to tradition it was from this mountain that St. Patrick drove all the serpents from Ireland into the sea, never to return.

The pilgrimage up the side of the holy mountain, where St. Patrick spent the forty days of Lent in penance, fasting and prayer, 1500 years ago, begins on Saturday evening any time between six o'clock and midnight, daylight having broken by this time. Young people make the ascent in three hours or less, while the older people take much longer, resting frequently during the journey. Torches are carried by many to light the way as guests ascend the precipitous falls. Often the crowd breaks into a hymn to make the walking easier or to help them to forget the difficulty of trudging over the stony paths. For the climb up the last two hundred yards before reaching the summit the pilgrims remove their shoes and finish the journey barefooted. Many of the more religious make the entire climb without foot protection.

St. Patrick was seventy years old when he first climbed the mountain. Now many a pilgrim of the same age makes the journey, taking a keen pride in this imitation of a part of the rigid Lenten penance of the patron saint of Ireland. There is still a thrill for them to reach the summit where St. Patrick lived fifteen centuries ago.

An odd thing about the pilgrimage is that rarely does any one turn back. Men and women using crutches finally reach the summit, taking five or more hours to reach the top. Old people go hand-in-hand, one helping the other. Girls with tender feet start the climb with old shoes to guard against the thousands of pieces of chipped stones, which cover hundreds of acres of the mountain side. These shoes are worn to shreds long before the summit is reached. Yet no one ever falters. Everybody goes on, just as if there was to be no returning back.

By six o'clock in the morning the half-acre summit of the mountain is crowded and so are the slopes, especially the protected side, should a chill wind be blowing. The masses begin at 6 a.m. and continue to be repeated until noon. As a rule about thirty priests, each with a staff, are the oratory or little church, that tips the summit of the mountain. As many as six thousand receive communion. Although the climb up Croagh Patrick is considered the most strenuous pilgrimage in the world, it is generally agreed that the views from the top are so superb that the visitor, as well as the pilgrim, feels that the journey is well worth the effort.

Saving Factor On Farms

Live Stock In That Position During Past Year

The Review of the Live Stock Market and Meat Trade for 1931, just issued by the Markets Intelligence Service of the Dominion Department of Agriculture states: "The commercial meat animals industry weathered the year much better than any other major branch of farm industry. Indeed, saleable live stock, and with this, of course, we must include poultry, was to its possessor the saving factor in the year's business on the farm. At the opening of the new year, those producers who had included live stock in their 1931 programme, found themselves in a much more advantageous position than those who had not."

Wise mothers who know the virtues of Mother Graves' Worm Expeller always have it at hand, because it proves its value.

The job of being wife to a genius is not all lavender, as witness the rejoinder of a notable victim to a gushing young man, telling her how wonderful it must be to be the wife of a genius.

"Well," said the wife, "he's just as hard to get along with as any other damned fool!"

A street car terminal, connected with the train level by an escalator, is to be constructed under the ground floor of the new central railway station in Milan, Italy.

The Prince of Wales is quite a linguist, speaking French, Spanish, Italian, German and Danish, as well as his mother tongue of English and Welsh.

AS SLIM AS AT 20

Still Fit and Active at 55

"I have been active the small dose of Kruschen Salt every morning for the last three years. I wouldn't be without them in the house. I used to suffer with constipation and piles, but an never troubled in that way now. I am 55 years, and as slim as when I was 20. I have to work very hard, as I have my family and an invalid father to attend to, and I always say it's the Kruschen that keeps me fit." — M. S. There's nothing like hard work and activity for keeping superfluous fat away. The trouble with most folks is finding the necessary energy. That is where Kruschen comes in. After you have had your daily supply of Kruschen every morning for a couple of weeks you'll get what is known as the "world over" — That Kruschen feeling.

The urge for activity will fill your entire being — you'll not be content to sit in a room chair after your day's work is done. You'll feel the spirit of youth within you — a joyful feeling — you'll want to take long walks, play games and your work will cease to be a hardship — it will become a pleasure.

Service Is Swift

Efficient Operators In Charge Of London's Overseas Telephone Exchange

London's overseas telephone exchange, recently opened, is a veritable "City of Dreadful Night" in modern setting, for here telephone conversations are routed for the United States, Latin America, India, Japan, South Africa, Australia, New Zealand, Europe and Asia at sea all hours of the day or night. There are one hundred and fifty girl operators, speaking French, German, Spanish and Italian, in addition to their native tongue, as the calls come through the boards. The service is so swift that it is possible for one in London to speak, within an hour, with persons as far away as Honolulu, Cape Town, Sydney, Buenos Aires, New York or Tokyo.

New Industry For Canada

Plant For Production Of Cellophane Operating In Quebec

Canadian materials and Canadian labor are employed in an industry new to Canada at the Canadian Industries cellophane plant which recently commenced production at Shawinigan Falls, Quebec. The pulp from Canadian forests forms the basic raw material for the manufacture of the transparent wrapping substance now being made by the first time in Canada. Hitherto all the cellophane used in the Dominion has been imported.

The new plant, built by Canadian workers through Canadian capital and enterprise, is the newest industry in Canada and the latest addition to the industrial life of this little manufacturing town.

Courtesy In Night Driving

Dimming Of Headlight Is Mark Of Good Manners

Driving into the dazzling lights of an oncoming car is dangerous and business-dangerous alike to the dazzler and the dazzled. And it is so unnecessary. To dim the lights of a car is so simple and easy a task that it seems that the danger involved by not doing so would compel motorists to practice this simple rule of night driving etiquette, for it is etiquette, and good manners are just as essential on the roads as in the ballroom.

Miller's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic condition, which underlies the worm infestation, and drive them from the system, and at the same time, they are logical in their effect upon the digestive organs, restoring them to healthy operation and ensuring immunity from further disorders from such a cause.

Caller—"Wouldn't you walk as far as the street car with me, Tommy?" Age Seven—"I can't." "Why not?" "Cause we're going to have dinner as soon as you get."

An inscription found at Delphi shows that in the first century, B.C. Rome planned an international police system for the seas, to fight pirates and brigands.

Granular carbon made from coals gives to the telephone its voice. The granules change air pressure waves to electrical waves in the transmitter.

The sodium-vapor bulb produces the most efficient light known for commercial use.

Skin Loveliness

Easy To Have, Famous Vegetable Pills Better Than Creams

Miss E. T. has proved it. She says: "I took Little Liver Pills to do more to keep the complexion clear than all the face creams I have used." PRELIMINARY VEGETABLE, a gentle, effective, and safe remedy for all skin troubles. Dr. Carter's Little Liver Pills are without equal for correcting Constipation, Acidity, Biliousness, Headaches and indigestion. 25c. & 75c. red packages, everywhere. Ask for Carter's by NAME.

W. N. U. 1944

Empire Tribunal

For Settlement Of Disputes Between Member Units Of Empire

Calgary establishment of a tribunal for settlement of justiciable and non-political disputes between member units of the British Commonwealth of Nations, was founded by Prof. R. A. MacKay, of Dalhousie University, before the Canadian Political Science Association at Toronto.

Another speaker, Hon. N. W. Rowell, K.C., recognized authority on constitutional matters, took issue with an expressed view that establishment of such a permanent empire tribunal was blocked by lack of sufficient sovereignty by the Dominions.

Prof. MacKay contended that under technicalities of international law the Dominions did not have separate sovereign entities as between themselves, though they might be considered such a status as between one of them, and a foreign country outside the Empire. Under existing conditions, he said, Canada could hale Germany before the Hague court of international justice to settle a dispute, but a controversy with Ireland or Australia would have to depend on the "dubious authority" of the privy council, or an officially defined powers of an arbitral tribunal.

Mr. Rowell argued that various intra-Empire conferences and the attitude of Westminster had demonstrated the power of the crown was divisible and could be delegated to autonomous members of the British Commonwealth.

Bags Must Be Tagged

Guaranteed Analysis Shows Actual Worth Of All Fertilizers

The Fertilizer Division of the Dominion Seed Branch issued a timely note in its caption to farmers as to the importance to them of reading the tag which must be affixed to each bag of fertilizer sold in the Dominion. It is important that the farmer make sure, before accepting delivery of fertilizer in bags, that it is labelled properly, and that the analysis shown on the tag is what he has ordered and wants. It is this guaranteed analysis which represents actually the real worth of the fertilizer. The label may appear on the bag itself or on a tag attached. Should a fertilizer be delivered without such a label the matter should be brought at once to the attention of the nearest office of the Dominion Seed Branch, responsible for the proper enforcement of the Act.

Favors Must Be Exchanged

Canada Should Adopt Policy Of Give And Take

It is thought that the national economic council to be held in Ottawa, next week, will give encouragement to the Canadian farmer in the raising of hogs, cattle, sheep, poultry, etc., as well as in wheat, barley, butter, cheese, apples, potatoes. Of course there must be give and take. If Australia and New Zealand should demand favors for their butter, wool and mutton, we must take advantages from them in wheat flour and lumber. We must exchange favors with tropical members of the Empire for fruits, such as bananas, pineapples, etc., for hand four that will keep for years in any tropical climate and, such fruits as can be perfected only in the temperate zone.

Arctic Islands Preserve

The area of wild life preserves set aside for the benefit of native by the Department of the Interior, in the North West Territories, Canada, has been extended by taking in all islands under Canadian jurisdiction north of the districts of Mackenzie and Keewatin, within the Arctic Circle and north of the 60th parallel. This large area is now known as the Arctic Islands Preserve. It embraces a land area of 439,105 square miles.

Altar For St. Patrick

On a high hill within a mile of the spot where St. Patrick landed from Rome 1,500 years ago, Ireland is to erect a great open-air altar. The altar will cost \$50,000. The money is being raised among villages. The first sod was turned on St. Patrick's day during the celebrations of the 15th century.

The Many-Purpose Oil—Both in the house and stable there are scores of uses for kerosene. For example, use it for cuts, bruises, burns, acids, the pains of rheumatism and sciatica, sore throats and chest. Horse liniment is very largely to similar ailments and misadventure as afflict mankind, and are equally amenable to the healing qualities of this fine old remedy which has made thousands of firm friends during the past fifty years.

Will Again Use Sub

Sir Hubert Wilkins, British explorer, says he expects to make a new scientific expedition to the North Pole in 1933 and 1934, using a submarine with "entirely new and unsuspected characteristics."

Use of the submarine, he said, was the only feasible method of making a practical study of the pole.

Australia will enter a large number of exhibits at the World's Grain Show to be held at Regina, Saskatchewan, in 1933.

Cultivation of begonias is traced back to 1770, when some of these plants were introduced into England from Jamaica.

Not Looking For War

Nations Of Europe Are No More Aggressive

William Hard, of New York, political correspondent for the National Broadcasting Company, returned from Italy on the "Roma." He was present at the disarmament conference in Geneva and said the present conference means the high mark has been reached in armament and henceforth there will be reductions.

"There is no prospect of a war in Europe," he said. "Instead we find a remarkable situation, where every nation anticipates invasion, with no one ready to invade. Everywhere there are defenses but no aggressions; everywhere there is fear but no danger. When the European nations come to realize there is no danger, they will automatically disarm."

Mr. Hard found that the League of Nations is working strenuously for reductions in tariffs on the promise that when these barriers are removed, world trade will be restored.

"Europe is not in a bottomless pit," Mr. Hard said. "She will come up and sit I found greater courage and confidence in France, England and Italy. It is a spirit too little known or exercised in the United States."

"As for Italy, the spirit of nationalism there has been replaced by that of democracy. They have passion through the Hitlerite stage. Young movements are always radical and frequently erratic."

Values His Fountain Pen

Veteran Novelist Still Using One Purchased In 1879

Fifty-three years ago Mr. Elias K. Hocking, the veteran novelist, bought a fountain pen to start writing his first book. Since then he has written about 80 books, all with the same pen. Mr. Hocking has not even changed the nib; it paid 25c for the pen. Mr. Hocking said the other day: "It is a gold one with a metal nib, and it is as good today as when I bought it in 1879. I used to fill it with a little glass tube, but I don't do so now. I dip it in the ink like an ordinary pen, and it will write a couple of pages before the next dip. Besides my books, which average 80,000 words each, I have written hundreds of newspaper articles and thousands of letters with the pen. 'It has written about 500,000 words and that is a conservative estimate. I value it so much that I never take it out with me, in case I lose it. When I go away for a holiday I leave the pen at home.' At the age of 82 Mr. Hocking was not complaining of any old age. Writing, however, is not his only interest. He is a keen bowler, and enjoys a game of golf.

Work Inspired By Poem

Bronze Of Lindbergh's Atlantic Flight Proposed To Helen Keller

A bronze high relief of Colonel Charles A. Lindbergh's historic solo flight across the Atlantic was presented recently to Miss Helen Keller, blind and deaf author and social worker. The inspiration for the work which was executed by Frederic Giurgi, the sculptor, was a poem written by Miss Keller on May 27, 1927, the day Colonel Lindbergh took off from Long Island on his trans-Atlantic flight. In order that Miss Keller might fully appreciate Mr. Giurgi's work he carried it in high relief. Miss Keller, had wired to the sculptor, "My fingers tingle with eagerness to touch these beautiful figures in the Lindbergh flight." The sculptor was unable to be present.

Rest Kept Him Vigorous

Ability To Sleep Any Time Secret Of Hindenburg's Energy

Many people must have asked themselves how a man, even of Hindenburg's powerful physique, has been able to remain so vigorous in mind and body long after the age when most men retire from active life altogether. The secret of his continued energy, as of his remarkable balance in his ability to rest and sleep. During the war, when he was visiting the different zones of operations he would take his seat in the train, say smilingly to his entourage: "Now, gentlemen, I am going to think about the Service," and immediately go fast asleep, only to wake a few minutes before the train arrived.

Bank Park Set Aside In 1885

Bank National Park in the province of Alberta is the oldest of the Dominion playgrounds, the original reservation having been set aside in 1885. It comprises an area of 2,585 square miles of territory. Reserved for the enjoyment of all who visit it, it is also a wild life sanctuary, evidence in the large number of mountain sheep, deer, and bear to be seen in the area adjacent to the highways of the park.

Despite progress in attacking tuberculosis, this disease still ranks as the third cause of death among industrial wage earners of Canada and the United States.

There is a reason for optimism, declares a noted publicist, if we view the financial situation as a whole. The trouble is that most of us are viewing it without the 'w'.

At one time aluminum was priced at 90 cents a pound.

To Meet In Edinburgh

Sixteen Canadian University Women Will Attend Conference

Sixteen Canadian university women will journey to Edinburgh, Scotland, for the sixth triennial conference of the International Federation of University Women, to be held from July 27 to August 4, it was announced at headquarters of the Canadian Federation of University Women.

They are: Mrs. Douglas J. Thom, Regina, Sask., president of the Canadian Federation; Miss Lalla C. Scott, Toronto, convener of the Canadian committee on international relations; Miss Helen F. McEwen, Miss W. G. Barnard, Miss A. W. Patterson, Miss Gertrude Boyle, Miss Jessie Dwyer and Miss Bertha Hamilton, all of Toronto; Miss Lolla Rutter and Miss Dorothy Tingle, Regina, Sask.; Miss M. Winifred Kydd and Miss Hazel Murchinson, Montreal; Miss M. L. Boler, Vancouver; Dr. Donald Dickie, Niagara Falls, Ont.; and Miss Constance Weston, Ont.

A suitable programme of addresses, group meetings and social engagements has been arranged. The meetings will be presided over by Professor Winifred Guild, head of the department of physiology at the London School of Medicine for Women, and president of the International Federation. Representatives of 36 national federations are expected to attend.

The International Federation comprises about 50,000 individual members and is pledged to promote international goodwill through study of national and international problems and advancing the opportunities of university women.

Substitute For Human Voice

Instrument Invented By Man Left Speechless After Operation

Left speechless as the result of an operation some years ago, Dr. J. B. Bogart of New York, addressed the Annapolis Valley Medical Association through an instrument which provides a substitute for the human voice. He spoke for twenty minutes. The instrument is a curved tube-like appliance, one of which is held against the throat, the other held lightly in the mouth. A small tube leads to a box held in the hand. It is from the box that the sound issues. He told the association he had invented it himself after his vocal cords had been removed in an operation for cancer. Dr. Bogart, who is a native of Nova Scotia, practices surgery in New York.

Excuse Was Original

Farmer Speeded To Keep Pigs From Losing Weight

Warren Arts, Titro farmer, was speeding to keep his pigs from losing weight, he told Traffic Judge Joseph F. Smith, at Cleveland, Ohio. "If I hadn't reached Cleveland stockyards before they closed," he said, "I'd have had to wait until the next day and my pigs would shrink in weight overnight."

Now he's wondering if the shrinkage would have amounted to more than his \$5 fine.

The Man With Asthma, almost long for death to end his suffering. He sees ahead only years of endless torment with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know who can complete relief it can give. Let him but use it faithfully and he will find his asthma a thing of the past.

Lady (to hotel acquaintance): A terrible thing has happened. I've had a lot of clothes stolen. Acquaintance: By Jove, yes! Nearly all of 'em, what?

Grain exports through Montreal Harbour in 1931, increased by 8,000,000 bushels over 1930.

Town News

Flow your summerfallow with a John Deere plow. The easy scoring plow. Morrison and Johnston, Ltd.

There will be a meeting of the Gull Lake Sports Committee in the Town Hall, tonight (Thursday) at 8.30 p.m.

Special—2 only 1 gal. Crocks for 35c. at Morrison and Johnston, Ltd.

The High School Reunion Dance will be held in Fernie's Hall, Gull Lake, on Thursday, June 30th. Admission 50c. Everybody welcome. Watch for further announcement.

Kill weeds now with John Deere cultivator. All sizes. Morrison and Johnston.

"The Needs of the Rural Church" Will be the subject next Sunday presented by the Pastor, Rev. H. D. Riege. Services will be held at Spruceville at 11 a.m., at Canyon at 3 p.m. and at Blackfalds at 8.

FOR SALE Bicycle, in good condition. Mrs. S. Vivian, ¼ block north of Hospital.

Ask us about the new John Deere Binder with the new non-clog elevator. Morrison and Johnston, Ltd.

"Bill" Hart, the painter, wishes us to state that he is not the gentleman who was recently before the court for an infraction of the Motor Vehicle Act.

John Deere, the Spreader with the Bestor on the axle.

The Herald games are continued at Red Deer on Sunday at 1.30 p.m. All golfers who can attend should do so.

During the thunder storm on Tuesday, Fred Moore had two horses killed by lightning and Fred Walden lost one.

There will be a meeting at The Manse on Monday, June 20th from three to five o'clock of the Baby Band and Orville Roll. All mothers in the congregation with young children are invited with their little ones. Refreshments will be served.

Mrs. Dee Gleason, late of the Cozy Beauty Shop, wishes to announce that she is opening a new beauty shop at the Campbell Block (in the room formerly occupied by Dr. Souch) where she will personally attend to marcelling, hair-cutting and all beauty culture. Phone 270 for appointments.

George DeLong is attending the annual meeting of the Canadian Society of Technical—Agriculturalists, which is being held this year in Winnipeg. As president of the Alberta section of the society he goes as one of the delegates from Alberta. He is also attending the meeting of the Canadian Seed Growers' Ass'n, who also convene in Winnipeg this week.

The Lacombe Public Library is situated above the Town Office and is open on Saturday from 3 to 5 and from 7.30 to 8.30. Members of the Lord Lascelles Chapter, I.O.D.E. take turns in acting as librarians. We have placed about fifty books on the shelves during the past two weeks and will have the following copyrights on for Saturday, June 18: "Magnolia Street" by Louis Golding, "Clairvoyant," by Lathair, "Brothers of the West," by Robert Reynolds, "The Young 'Varsity" by Frances E. Brown, "The Rock and the River" by Ralph Connor, "Grand Hotel," by Vicki Baum.

Property owners on the North side of Barnet Avenue, from the F. E. McLeod store west to Park Street will be pleased to learn that with the current levy, there will be no further frontage tax payable. On June 6th the Town redeemed the last coupon covering the sidewalk constructed in 1912, for which 30 year mortgages were issued. The bonds which bear date May 28th, 1912, are signed by Charles B. Halpin, Mayor, and Edmund John Tett, Secretary-Treasurer. In addition to the Barnet Ave. improvement work, the sidewalk on the west side of the Calgary and Edmonton trail from the Day corner north to the J. L. Craig residence has been paid in full, the 1932 levy being the last installment.

ST. ANDREW'S CHURCH. July 19th is being observed throughout North America as Rural Life Sunday, when the problems of Rural Life will be discussed, especially those that affect the Religious community. This question will be emphasized at the morning service in St. Andrew's United Church on Sunday. It is a live question with everyone in this community, and a large attendance is expected.

Lacombe Ministerial Association held its annual picnic at the United camp, on June 11th, and was largely attended. One important feature was the kindly reference to the approaching departure to Ontario, of Mr. and Mrs. Moore, of Bentley. Mr. Moore, Chairman of Lacombe Presbytery will be greatly missed. He made a fitting reply, and spoke of the fellowship that he had enjoyed, and of his regret at leaving so many friends. He is accepting a call to Port Lambton, Ont.

The United Camp at Meridian

Beach, Gull Lake, which is one of the best equipped camps in the Province, accommodating eighty, and has a fine site at the south end of the lake, near the gravelled highway, is now staffed for its summer's work.

The Boy's Camp, July 1st to 11th, will be directed by Rev. T. H. Davies, Ponoka. Other leaders will be Ray Proctor, B.A., Edmonton, Fred Young, B.A., of Emmanuel College, Toronto, Edgar Todd, Lacombe, and the Tuttle Brothers, Edmonton.

The Girl's Camp, July 11th to 21st will be directed by Miss Eva Paul, Red Deer, who has had several years' experience as leader at Camps. Other leaders are Mrs. R. B. Layton, Lacombe; Mrs. W. G. Firth, Tofield; Mrs. Shaw, Leduc, and Misses Addie Reeves, Catherine Newton, Elizabeth Layton, Janette Sneath, Lacombe, and Joy Tomstad, Edmonton.

These are ten-day camps, being run at a cost of \$6.00 for each camper. Applications have been received from Calgary and Edmonton, and all points along the line. The business Director for both camps is Rev. R. B. Layton, Lacombe.

On Sunday evening, June 19th, St. Andrew's Choir will give a recital. As some of the choir members are leaving shortly, this is probably the last opportunity of hearing the choir with its present membership.

The W.M.S. will hold their regular monthly meeting at the home of Mrs. H. E. Carruthers, on Tuesday evening, June 21st. The business Director for both camps is Rev. R. B. Layton, Lacombe.

United Church Boy's Camp opens at Meridian Beach, Gull Lake, on Friday, July 1st, and runs until Sunday, July 10th, upon which date the Girls' Camp will open and extend a further ten days.

THE CHURCH OF ENGLAND IN CANADA

Dioecesis of Calgary
St. Cyprian's Church, Lacombe
Rector: The Rev. T. H. Chapman
Organist: Miss Kathleen C. Walters, L.A.B.

Saturday, June 18th—The Annual Sunday School Picnic will be held in the Park Area at Aspen Beach. All grown-ups and children, who are members of the Church, are cordially invited to assemble themselves at the Church at 1:30 p.m., "armed" with baskets of "eats". Arrangements are being completed to provide transportation both to and from the lake, and anybody who can place their car at the disposal of the Church for this purpose, is respectfully requested to do so.

June 19th, 14th Sunday after Trinity
10:00 a.m. Sunday School.
11:00 a.m. Holy Communion.
7:30 p.m. Evening Prayer.
No Sunday School.

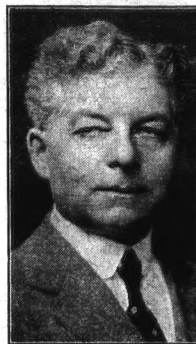

Sunday, June 26th

11:00 a.m. Flower Service. Special music.

7:30 p.m. Annual Masonic Service. The Special Preacher for the occasion will be the Rev. M. T. H. Cripps, Rector of St. Luke's Church, Red Deer, Rural Dean of the Red Deer Diocese, and a Past Grand Chapter of the Masonic Order.

July 4-9. The Sixth Annual Diocesan Summer School will be held at picturesque and lovely Banff, nestled amid the majestic grandeur of the Canadian Rockies. You really can not afford to miss this treat.

At Chautauqua

DR. J. H. RUBIN

"The Five Year Plan—A Success or Failure?"

Third Afternoon
Of Russian birth, an eyewitness of the Russian revolution, he is still in Russia, Mr. Rubin can speak with authority on this subject, which is of compelling interest to Canada and the world.

ROCKEFELLER AND PROHIBITION

John D. Rockefeller, who has given more money to aid the prohibition forces than any one man in the United States has come to the realization that it was not money well spent.

Mr. Rockefeller speaks not only as an earnest temperance advocate, but as a life-long total abstainer.

He supported prohibition because he hoped, like others equally sincere, that it would abolish the saloon and all the evils of intemperance.

He is at length sadly but certainly convinced that prohibition has proved a disastrous failure, that it has replaced the saloon with the still more evil speakeasy and has created many more drunkards than there ever were saloons.

Mr. Rockefeller realizes also that the whole underworld has been financed from the profits of illicit bootlegging, that all kinds of crime have

been dangerously increased, that violations of law have become general and respect for law proportionately weakened.

It is now convinced that the nation, in serious and earnest effort to promote temperance should adopt some system of "temporary prohibition" like the proven method of Canada—which does not interfere with the legitimate liberty of the citizen, but which recognizes the now obvious fact that moderation and temperance can best be established through judicious government regulation and through persistent moral suasion.

SHORTHORN CLUB

The Annual Field Day of the Central Alberta Shorthorn Club, will be held in Lacombe District on Wednesday, June 22.

Starting at 9 o'clock at the Farm of H. Magilton, just west of Lacombe the herd of Mr. Magilton, John Laing and Dr. Talbot will be visited, arriving at the Experimental Station at 11.30, the forage crops will be inspected.

At noon, a picnic basket lunch will be held. Coffee, cream, sugar and cups will be supplied.

The afternoon will be spent in visiting the herds of J. L. Walters, W. Sharp, H. S. Frame and P. A. Switzer. An interesting program is arranged at each place. Every one is invited, as the day will be full of interest to every member of the family.

MONTH OF ROSES

AND ROMANCE HERE
June, month of roses and romance is now well under way. The roses are really coming into bloom, and the romance, since the latter may be taken for granted as long as youth follows its usual and natural bent. Bounteous crops of grain, however, are more appealing to the Alberta farmer than the romantic Vancouverite can afford to point to our small rose crop with scorn. We have some time for roses too, as our gardens will testify.

June was named for Juno, pagan goddess of matrimony, especially matrimonial harmony. It is true the lady did not always find that harmony herself, since Juno was a bit of a philanderer if the classics are to be taken seriously. Nevertheless she did rejoice to see others enjoy it. Her name and the month have been synonymous with marriage for many a century. True love, it is popularly believed, will run a little smoother if the nuptial cord, sometimes merely a thread, though strong as steel, is tied in June.

And of course, marriages bring hosts of other attractive features. There are honeymoons and the subsequent feathering of respective dowry nests, to speak metaphorically. There are flushed and lovely bridesmaids and flustered and happy brides. Just why the second male lead in the show is called "best man" is a matter which invites attention of learned cynosologists. There are flowers and toasts, both drunk and spoken, dinners, breakfasts and other means of inviting indignation or possibly good. There are weeping mothers, giving their sons to "that woman" or their daughters to "that man" and again the quizzical male rises to ask why women should cry over weddings. But this invites melancholy and June has no part with the doleful.

DE VALERA FACES

COMPLICATED ISSUE

President De Valera has met two times in his crusade to abolish the oath of allegiance to King George from the Free State constitution. The Senate rejected two sections of the government bill to bring about abolition. These sections would have repealed the provisions in the constitution stipulating anything repugnant to the Anglo-Irish treaty should be null and void, and would have amended an article of the constitution by deleting reference to the treaty. A further development was a clear-cut statement from the prime minister of Ulster that Northern Ireland will stick to union with Great Britain through thick and thin.

Here and There

Captain L. D. Douglas, R.N.R., recently named commander of the Pacific speed Queen, the Empress of Japan, largest of Canadian Pacific liners on the Pacific, recently brought his 25,000-ton charge alongside Pier B, Vancouver within 44 minutes of the Pacific record.

His Excellency Rana Phagat Chandra Bahadur, Rajah of Jubbal, was a traveller on the Empress of Japan, largest of Canadian Pacific liners on the Pacific, recently brought his 25,000-ton charge alongside Pier B, Vancouver within 44 minutes of the Pacific record.

Crop conditions in western Canada are most encouraging and given normal weather conditions, the quantity and quality of the harvest will go a long way towards restoring confidence and prosperity. Grant Hall, vice-president of the Canadian Pacific Railway, stated recently on his return from a tour of inspection of the company's property.

Final figures of butter production in Alberta for 1931 amount to 22,877,322 pounds, which is more than 600,000 pounds above the previous highest year's record for the province. Closely associated with butter production is a movement inaugurated by the Federal and Provincial Departments of Agriculture to encourage farmers to enlarge their large crop areas.

Major "Bill" McEachan, one of America's best known columnists, and Lionel Hitchman, veteran defense man of Boston Bruins, landed a 19 and a 30 pounder salmon from New Brunswick waters respectively in May. The Major got his fish with a four-ounce trout rod on the Cain's River; Hitchman was fishing at Hart's Pool near Fredericton on the Saint John River.

John Cudaby, of Milwaukee, hunting across the Great Divide near Banff, and faced by a furious charging wounded grizzly almost within striking distance and with but one cartridge left in his rifle, coolly stood his ground and dropped the monster at his feet. Mr. Cudaby has hunted in India, Africa and Alaska, but said he had never had the thrill he experienced on this recent grizzly hunt.

Success of the bargain trips over week-ends and holidays which the Canadian Pacific has put into effect this year was further attested by the great popularity enjoyed during the recent Victoria Day holiday and in week-ends following. To take one large centre, Montreal—the city was literally invaded by the great influx of visitors from eastern Canada and the United States and other big Canadian cities report similar conditions.

Brother officers of the Canadian Pacific Railway, representatives of transportation systems in Canada and the United States, members of the Masonic Order and of Rotary and sorority friends from virtually all walks of life united in an impressive tribute to the late George A. Walton, general passenger agent of the railway at his funeral in Montreal recently. The remains were taken to Winnipeg where burial took place in the Elmwood Cemetery with His Honor James D. McGregor, Lieutenant-Governor of Manitoba, Mayor Ralph H. Webb, of Winnipeg, and many officers of the company in attendance. His Grace Archbishop Matheson, assisted by the Rev. H. S. Reed, of St. Luke's Anglican Church, conducted the funeral service. (47)

Bathing Suit Lost
A woman's bathing suit was lost from the clothes line in behind the residence of Rev. T. H. Chapman. The bathing suit apparently was blown off the line on Saturday night and carried some distance. The suit is of green wool with red markings. Anyone finding it please leave it at the Globe office.

BOARDS FOR SALE
Tanworth boards for sale or will trade for feed grain. \$10.00. Apply Mrs. L. N. Graham, Phone 13609.

FOR SALE
Purified polled Hereford Bull for sale or trade. Have you? Apply J. H. Anderson, Lacombe.

Bentley News

The machinery has been installed in Bentley's new and up-to-date creamery. The creamery is one of the best in the province. The main building, (exclusive of the ice house) is 45 feet long and 32 feet wide. The new Red and White Store is nearing completion. The roof is to be finished this week. The cement work is all done, and the building will be ready for occupation shortly. On Wednesday night, thieves entered the Garfield Hardware Store and robbed the till of between \$30 and \$50. Entrance was made by window. No trace of the thieves has been found to date.

Ronald Wetzel was badly injured on Monday, when he was strangled under the foot of a cow, in Edmonton.

Mr. Harold Hopkins, Secretary M.D. of Lorne, No. 400, spent the week end in Edmonton.

Mr. and Mrs. J. Dameron and Mr. and Mrs. J. McPherson visited with Mr. and Mrs. W. B. Cairns in Edmonton, over the week end. Mrs. E. J. Veefkind, spent the week end with her daughter, Mrs. Carl Wiese, in Edmonton.

Mr. Beacom, manager of the Bank of Montreal, has moved his family to Bentley, where they will reside, in the apartments above the bank. The rooms have all been re-decorated, etc.

The recital of Miss Theresa Siegel will be held in the United Church on June 17th.

Born at the Bentley Hospital, on June 7th, to Mr. and Mrs. B. Heed, of Bentley, a son.

The following Bentley young people spent the week end at the home of Mr. and Mrs. H. Gunn, at Aspen Beach: Grace Garries, Fern Dameron, Hazel Dameron and Miss McLaggan.

Rev. W. J. Moores, of Bentley, has accepted a call to the United Church at Port Lambton, a summer resort in Ontario. Mr. Moores was ordained in 1923. When volunteers were called to go west, Mr. Moores went in 1926. Mrs. Moores is a graduate of the Deaconess training school in Toronto, and is a splendid help to her husband in his pastoral work.

The standing of the contestants in the Doll Contest, at Bird's Drug store up until June 9th is as follows:

No. 1	June Slaughter	1090
No. 2	Helen Witte	560
No. 3	Phyllis Thorpe	545

No. 19	Victoria Johanson	(entered since June 9th)

BUSINESS AT GULL LAKE

Thomas Lorimer, Merchant at Gull Lake, is now ready to supply the residents and visitors to Alberta's favorite resort, with everything they will need during their stay there. He has a complete stock of groceries, four, fruit and fresh vegetables all ways on hand, and his prices are as low as can be had in any of the towns or cities. Everything he carries is now stock, and the choicest procurable. He has, for the convenience of the motoring public, a gas station, and "free air." You can also have your car serviced for minor troubles, such as tire punctures, etc. If you wish to have your order delivered, you will be accommodated. See him for your supplies—he guarantees satisfaction.

HE'S STILL WIND JAMMING

AND RAKING IN THE TWO-BIT PIECES—BUT

We wonder more and more how any thinking person can place the least confidence in that ex-cleric (1) Maloney; now self-styled silver-toned orator. Referring to Rev. F. D. Roxburgh, a well known Alberta minister, Maloney calls him "a yellow, half-baked Protestant." At the same meeting, Maloney had a chair draped yellow, for Rev. Canon Pierce-Golding, of the Pro-Cathedral, Edmonton, whom he said refused to appear on his platform and tell why he had a crucifix over his altar. Referring to the minister of Erskine Presbyterian Church, Edmonton, Maloney classes him as another "half-baked Protestant."

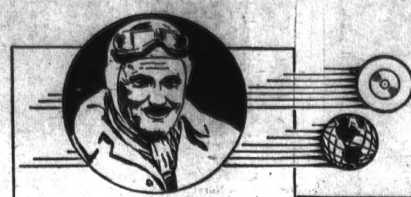

DEATH OF JOHN FROST EBERT

The death occurred at Tees, Alberta on June 8, 1932 of John Frost Ebert, age 68 years, 11 months and 14 days. Mr. Ebert was born at Campbell's Bay, Quebec, in the year 1874. He leaves to mourn, his wife and one son, Harry, of Tees, Alberta and one daughter, Mrs. J. P. Morton, of North Bay, Ont., and four grand children. He also leaves two sisters, Mrs. H. Judd, Cache Bay, Ont. and Mrs. M. Dwyer, Cheshelagh, Ont.

Leghorn Hens For Sale

Will sell my flock of purebred white Leghorn hens, bred for heavy egg production, etc. All laying and blood tested. Snap.
C. Beck, Pine Lake, Alberta.

All Holders of Official World's Records Used DUNLOP Tires

HOLDERS OF WORLD'S RECORDS

Kaye Don

An idol of Britain, a living expression of British sportsmanship, Kaye Don has figured prominently in the pages of racing history on land as well as on water. For nearly three years his time of 120.92 m.p.h. for a distance of 200 miles (approximately 125 miles) has stood unchallenged. He also holds the world's mile record of 100.77 m.p.h. starting from the drop of the flag. Both these records were made on DUNLOP tires.

The DUNLOP SILENT TIRE

Every one of the world-famous racing drivers who hold the 61 official world's auto speed records made these records on DUNLOP tires. These drivers staked their lives on DUNLOP dependability. Today's prevailing speeds, quick starts and sudden braking require the perfect assurance of tire reliability. For safety's sake—for comfort—for economy and for smooth, silent travel, insist on DUNLOP Cable Cord—"The World's Finest Tire."

Service Station, Nanton St.

Lacombe's Debenture Debt is Very Low

From the following statement of Debentures yet outstanding of the Town of Lacombe, it will be seen that in 1937, we will be completely out of debt. We venture to say that no other Town in the Province, with anything like the utilities Lacombe can boast of is in such a fortunate position.

ROBBERY AT GULL LAKE

One night last week robbers broke in to Otto Woellners general store at Gull Lake, making entrance through a back window, and after gathering up a good supply of cigarettes and tobacco, took the cash register out to the railroad tracks, burst it open, stole \$75 from it, and left for parts unknown without leaving a trace. Const. James was immediately notified and is working on the case.

CALF FOUND

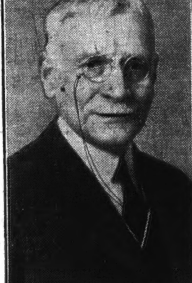

Came to our place about June 1st. Red Roan calf about 3 weeks old. Owner can have same by paying cost of advt. Ruben Frizell, Phone R2105, Lacombe.

CARD OF THANKS

Mrs. Fred Moss and daughters, Edith, Doris and Winnifred, wish to thank all the friends and neighbors for their help and sympathy in the hour of bereavement and sorrow.

At Chautauqua

Next week is Chautauqua week in Lacombe. Chautauqua is steadily growing and the programme this year is the best which has ever been brought to Lacombe. Get a copy of the programme, look it over and in the seven programmes you will find education and entertainment for every member of the family. The lecture on the "Russian Five Year Plan," on Wednesday afternoon will interest every businessman and farmer. The children's programme on Saturday afternoon is planned especially for children, but will bring happy memories to many parents. The evening programmes are particularly strong and will interest old and young.

JUDGE GEORGE D. ALDEN

"Altitudes and Visibilities"
After years of experience on the lowest priced entertainment which comes to Lacombe. Times are difficult and everything is down in price, but so is Chautauqua. Tickets which last year were \$2.50 are this year \$2.00 for the seven entertainments. Everyone in these strenuous times is working hard, and surely every farmer in the Lacombe district and his family have earned a holiday. Buy one ticket or two tickets and let every member of the family enjoy some part of Chautauqua.

TOM ROBERTS

Having received instructions from Mr. Oxley, who is leaving for the Old Land soon, I will sell at Public Auction at his residence just West of the Calgary-Edmonton Highway, near the Experimental Station, Lacombe, the entire contents of his house.

SATURDAY, JUNE 18th

Commencing at 1:30 p.m.
Orthophonic Victrola Gramophone and Records. Book Case and Books; Several Pictures; Winnipeg Couch; Day-ent; Ornamental Table; Kitchen Cabinet; 6 hole Kitchen Range with Reservoir; McClary Heater; Coal Oil heater; Kitchen Table; Clothes Cupboard; 2 Kitchen Cupboards; Refrigerator; Double bed, springs and mattress (Simmons); Pillows; Blankets; etc.; Sanitary Closet; Oak Dressing Table; Oak Wash stand; 2 Easy Chairs; Wooden arm chair; 4 kitchen chairs; Gasoline lamp; Linoleum 10 x 12; Linoleum 8 x 10 with several smaller ones; 2 wash tubs; wringer; step ladder; rug; mats, curtains, cushions, China, Crockery, Kitchen Utensils; Garden Tools, Shovels, Axe, etc.

A Great War!
A Great Pestilence!
A Great Depression!

4 ALL within twenty years. Could there be a more grueling test?

4 Yet life insurance stands invincible. During that whole period it paid every obligation promptly and fully—as it has ever since the Dominion was formed.

4 The Sun Life Assurance Company of Canada itself paid to policyholders and beneficiaries in cash during these periods—

The War (1914-1918)
The Flu (1919)
The Depression (1930-1931)

—over \$226,000,000. It has paid to its policyholders and beneficiaries since formation nearly \$600,000,000.

In prosperity, life insurance is valuable; in adversity it is indispensable. The protection of your home, the security of your business, the comfort of your old age, depend first on adequate life insurance.

Have you enough?
Consult a Sun Life man

Company of Canada**

WORLD HAPPENINGS BRIEFLY TOLD

To economize in League of Nations expenses a measure proposed by Great Britain has been sent to the supervisory committee.

A bill amending and consolidating the fisheries act was put through the committee stage and given third reading in the House of Commons. There was little discussion.

Millers of north and central Italy are now allowed to use 75 per cent of import grain, south Italy 95 per cent, while in Sardinia and Sicily restrictions have been entirely lifted.

To take possession of a fortune of about \$180,000,000, a white-haired Armenian woman, Marianna Djankian, 80, has gone to India with her two sons.

Hope that 1932 would prove historic in drawing together all citizens of the British Empire was expressed by J. H. Thomas, Dominion Secretary, in an Empire Day address.

Shanghai was completely isolated from the rest of the world as far as mail is concerned, when the indoor postal workers joined the outdoor workers in a strike.

Attempts to find the abandoned Hudson's Bay Company fur ship "Baychimo," and the salvaging of a rich fur cargo believed to be aboard, have been given up by William R. Graham and Mrs. Edna Christofferson.

Several thousand feet above the city of Chicago a youth killed himself in an airplane recently, because his dreams of becoming an aviator had come to naught. He shot himself to death.

In the first case of its kind ever brought in district courts, Angelo D. Graham paid \$500 county police court at London, Ontario, because he is said to have forgotten to put a stamp on a cheque.

Still Holds First Place

More Bibles Sold, But Fewer Books and Magazines

According to the Dominion Bureau of Statistics the Canadian people in these days of stress are turning to the Bible. In any case, despite the fact that times are hard and all imports are dropping, we are buying more copies of the Scriptures than ever.

During the fiscal year 1931-1932 there was imported sacred literature to the value of \$480,762, as compared with \$468,170 the year before. On the other hand, the importation of other literature was less, being \$12,608,325 in 1931-1932 compared with \$16,136,501 in 1930-1931. Imported newspapers and magazines have fallen off also from \$4,165,157 to \$3,075,696.

Bibles are not printed in Canada, so far as the records of the Dominion Bureau of Statistics show. They are imported mostly from Great Britain. The importation of about half a million dollars' worth of Bibles, prayer books, etc., according to a statement issued by the bureau, is regarded as remarkable in a country with a population of 10,000,000, in view of the fact that Bibles and other religious books become such beloved family possessions that they are cherished and prized and cared for as no other books are.—London Free Press.

Disastrous Economy

Demand For Products Cesses When Advertising Is Stopped

The most advertised manufacturers are the ones most asked for. Stores which advertise the most are the most frequented and prosperous. Their prices are no higher than at the other stores. Often they are lower for the precise reason that their advertisements bring them a bigger clientele and, as their sales are therefore far more, they are in a position to be content with a smaller profit on each sale. It was never so important to make sure that we do not become discouraged, and to go ahead with our business and keep money in circulation. How can we expect to succeed if we cut down on our advertisements which create the demand for the products of industry and commerce? This would be a false economy, an economy which would be disastrous.—Le Droit, Ottawa.

Was Not Prepared

A dub golf player lost his ball and not unnaturally was inclined to be annoyed with his caddy. "Why the deuce didn't you watch where it went," he demanded angrily. "Well sir," said the boy, "it doesn't usually go anywhere and so it took me unpreparedly."

"Miss Emma, you can't think how I long to have a happy home."
"But I thought you were married."
"Yes, that is the reason," Nagels Lustige Welt, Berlin.

W. N. U. 1944

Discover New Planet

New Celestial Body Has Been Named Nineteen Thirty-Two

The Heidelberg Observatory in Germany has announced the discovery of a new planet, which it tentatively named "Nineteen Thirty-Two," and which can attain a proximity of seven million kilometres to the earth. (This is approximately 4,850,000 miles).

Although investigation at the observatory had not been completed, all accounts of an object discovered by Dr. Karl Reinmuth said he had spotted what he thought was the new planet after long and painstaking telescopic research.

He tagged his discovery "Nineteen Thirty-Two H.A."

The object travels an elliptical orbit between that of the earth and Venus, its course bringing it remarkably close to the earth. The new planet crosses the earth's orbit south of the ellipse, thus the timorous need not fear a collision.

It was said that the presence of a planet in this region extends the boundary of the planetary system for a considerable distance, and indicates, it was explained, that the entire solar system is dotted with such tiny wanderers.

The Heidelberg "planet" is a very small object and a few miles in diameter. It is one of the celestial bodies usually called a planetoid. More than 1,000 of these planetoids have been discovered in the past few years. Most of them are at a great distance from the earth in orbits far out between Mars and Jupiter.

The largest of them is about the size of England if that country could be rolled into a ball. Most of them are quite small and the importance of this latest discovery is its extreme closeness to the earth.

New Earl of Egmont

Has Inherited All His Father's Troubles In Connection With Estate

The new Lord Egmont is a pitiable figure. He made friends with no one but his father, and now there can be hardly any lonelier boy in the world than this 18-year-old earl. He avoids all society, and has a terror of publicity.

He will have all his father's troubles and more, for death duties must again be paid on the Egmont estates. His father was staggered to find the duties reduced in apparent value from \$2,500,000 to \$1,500,000, due to death duties and settlements on two dowager countesses.

Father and son shot rabbits and pheasants on the estate and sold them to neighboring villages to help meet expenses. The boy, who never had a mother's influence, had practically no education or experience of the world, and who has been embittered by the cruel disappointments encountered since reaching England, is left to cope with the problems of a large though impoverished estate.

Idea Not Very Old

Canadian Introduced System Of Standard Time Fifty Years Ago

Daylight saving is still looked upon as an innovation and a novelty. Few people realize that the present system of standard time has not yet been in operation for fifty years. Standard time was the idea of a Canadian, Sir Sanford Fleming. As chief engineer of the Canadian Pacific Railway, he was brought into contact with the inconvenience caused by the fact that every town and city had its own local time, based on the sun. A railway time table for a transcontinental railway was therefore, well high impossible. Back in 1879, he made the suggestion, at a meeting held in Toronto, that the world should be divided into twenty-four sections, one for each hour of the day, and that time within each of these areas should be standard. The idea "caught on," both on this continent and in Europe. Sir Sanford's standard system was brought into effect in Canada and the United States in November, 1883. The next year, standard time was adopted by the European countries at a conference held in Washington, and the system soon became universal.

In Plain Language

Congressman Jack Garner, speaker of the House, whose pet aversion is pussyfooting, once conducted an investigation in which he expressed doubts of the truth of one witness' testimony. Later a reporter not at the hearing, interviewing Garner, asked the congressman if he had questioned the veracity of this witness.

"No," said Garner. "Did you express doubt of his truthfulness?" the reporter continued. "I should say not."

"Did you tell him you suspected him of falsifying?"

"By no means. Say, boy, what you trying to get at anyway? I did call the fellow a damn liar. If that's what you mean."

Much of the damage to wool, fur, and feathers for which clothes moths are blamed is really done by carpet beetles.

We owe the introduction of sugarcane into Europe to the Arabs.

Elephants have been known to live 200 years.

WHERE TO SPEND AN ENJOYABLE VACATION

Since the annual vacation has become a definite part of modern life, the decision as to where it will be spent is of considerable importance.

Canada has a particular appeal to the vacationist, for it has an unusual variety of attractions, which may be enjoyed at reasonable cost.

For most people, the summer vacation is limited to a few weeks and is really shortened by the time used in travelling to and from the locality selected. Canada has an extensive system of good roads and excellent railway services, which greatly facilitate travel between provinces.

Canada presents a striking diversity of natural features—the rugged and picturesque Atlantic Coast; the St. Lawrence River and Great Lakes; the world's greatest inland waterway; the Laurentian Mountains, land of forest and stream; the prairie; the majestic Rockies; and the beautiful Pacific Coast. Each of these areas has its own attractions of scenic beauty and opportunities for enjoyable recreation.

Fishing, hunting, camping, canoeing, and mountain-climbing may all be enjoyed under ideal conditions, while golf and tennis may be played practically everywhere.

Accommodation includes everything from camp site to luxurious hotel. Those to whom economy is a matter of concern may spend a pleasant vacation close to nature, at surprisingly small cost.

The National Development Bureau, Department of the Interior, at Ottawa, has prepared a series of automobile road maps, showing the main routes from one province to another, also a number of interesting booklets, including "Vacations in Canada," which describe the tourist attractions of each province. These will be sent to any of our readers planning a vacation. Applicants should state the areas in which they are interested.

Repair Vessels At Esquimalt

Summer Overhaul Of C.P.R. Pacific Steamers To Be Made In Canada

Summer overhaul of the Canadian Pacific Railway's Empress liners which ply out of Vancouver, will be done at Esquimalt instead of at Hong-kong in future, it is announced by Capt. E. Alkman, general superintendent of Canadian Pacific Steamships, Ltd.

The general overhaul, which takes place every winter, will still be done in the Orient.

The decision, which will bring additional employment for British Columbia workmen, has been reached by agreement with the Dominion Government.

The government has made concessions regarding dock dues and the Canadian Pacific Railway has undertaken to pay the additional costs of labor, which is nearly five times as expensive as that in the Orient.

The new policy will become effective with S.S. Empress of Russia which will go into drydock on July 15. She will be followed in turn by S.S. Empress of Japan, S.S. Empress of Asia and S.S. Empress of Canada.

Forgotten Soldiers

War Office Evidently Over-Looked Some Detailed For Special Duty

There must have been more than one case similar to the story told by Mr. Cedric Hardwicke in his recently-published autobiography, of the two British soldiers who, detailed to look after a rifle range at Havre in 1914, remained there forgotten until the end of the war, when they reported themselves and claimed five years' back pay, states Candide in the Sunday Pictorial, who himself came across one man in a similar position at Imbrueck, the chief town of the Austrian Tyrol, three years after the war had ended. Dining in a hotel he was surprised to see at a nearby table a British captain in uniform. They got into conversation, and he said that he had been sent there in 1918 and was convinced he had been forgotten by the War Office. "Why don't you get in touch with London?" asked the writer. "Why should I?" was his answer. "This is a cheap place in which to live."

Scientists have discovered that gasoline can be manufactured from cotton.

Recipes For This Week

(By Betty Barclay)

GOLD COOKIES

2 cups special cake flour, sifted.
2 teaspoons baking powder.
1/2 cup butter or other shortening.
1 cup sugar.
4 egg yolks, unbeaten.

Sift flour once, measure, add baking powder, and sift again. Cream butter, add sugar gradually, and cream together until light and fluffy. Add egg yolks, one at a time, beating thoroughly after each addition. Add flour. Chill. Roll into balls 3/4 inch in diameter. Roll some balls in mixture of chopped nuts and cinnamon, and remaining ones in tiny colored candies. Bake in moderate oven (350 degrees Fahrenheit) 15 minutes, using lower grate during first half of baking period and upper grate during last half. Makes 3 1/2 to 4 dozen cookies.

COCONUT SOUFFLE

2 tablespoons butter, melted.
2 tablespoons flour.
4 tablespoons sugar.
3/4 cup milk.
3 egg yolks, well beaten.
4 egg whites, stiffly beaten.
1 can coconut, southern style, chopped.

Blend butter and flour, add sugar and milk, and cook in double boiler until thick and smooth, stirring constantly. Cool slightly and add egg yolks. Fold into egg whites; then fold in coconut, salt, and vanilla. Turn into greased casserole, place in pan of hot water, and bake in moderate oven (375 degrees Fahrenheit) 50 minutes, or until firm. Serve with lemon sauce. Serves 8.

Loyalty In India

Untouchables Carry British Flag At Head Of Procession

British rule in India, it seems, does not wish more power to our strong right arm. Is it not, then, a little curious that they do not all give little to this wish? By reducing their own armaments they would increase ours. What could be simpler?—Manchester Guardian.

Practical Advice

A well-brought up young lady says the New Yorker, who can handle a car in the country but isn't so sure of herself in traffic, decided recently to take a course at one of the auto schools around Columbus Circle to brush up on city driving. To her utter amazement, soon after she had started out on her first lesson, the instructor leaned over, close to her ear, and queried softly: "Did I hear you call me 'darling'?" "Sir," cried the young lady hotly, forgetting all about her driving and turning to glare. "That's just to teach you, Miss," the instructor responded sternly, "no matter what anybody says to you, keep your eyes on the road."

Going and Coming

A look of recognition came over the diner's face as the newcomer entered the restaurant.

"Pardon me, sir," he said. "I think we met here a fortnight ago."

The newcomer shook his head.

"Sorry," he replied politely enough, "but I do not know you."

"Maybe not—but I recognized your umbrella."

"That's impossible, sir," went on the newcomer. "A fortnight ago I hadn't an umbrella."

"No, but I had," came the other's retort.

The city of Bahia, in Brazil, has a 240 foot elevator tower which carries pedestrians from the streets by the bay up to the streets on the hill.

The capital of the new Manchurian state is Changchun.

Canada's Newest Metal

Latest Addition To Many Refined Products Is Selenium

Selenium is the latest addition to the numerous refined metal products now being produced in Canada. It is obtained as a by-product in copper refining and was produced for the first time in Canada early in 1931 at Copper Cliff, Ontario.

Canada is now in a position to produce selenium in large quantities but the market for any output is at present restricted, according to Mr. Arthur Bulson of the Dominion Department of Mines, Ottawa. Further researches to develop new uses will undoubtedly create a wider market for this relatively new commercial product.

Selenium is not very abundant in nature, although fairly widely distributed. It is found associated with sulphur compounds and often accompanies the sulphides of heavy metals in the form of selenides. In the electrolytic refining of copper it remains in the slime or residue from which it is afterwards extracted. In its metallic form it is characterized by a unique action toward light, which has made possible the development of the photo-electric cell or "electric eye."

Selenium finds its present chief market in the glass industry where it is used as a colorizer and for neutralizing other colors; it is also used in the pottery industry for the same purpose. In the manufacture of rubber products it serves as a vulcanizing and accelerating agent, and because of its reputed properties of increasing the resistance to abrasion of rubber up to as much as eighty per cent, it may have a large potential market in that industry. One of the most important potential uses is in the production of selenium cells for television transmission and reception.

Britain and Disarmament

Says Natives Of Europe Would Like To See Britain's Army and Navy At Great Strength

Mr. Lansbury distinguished himself (in a debate upon the British Government's foreign policy) by asking one more of those questions which prove that he has not yet learnt the art of sitting quietly on a fence. "Against whom are we arming?" The painful crudity of this inquiry drew down on him a severe rebuke. "That," said Sir Austen Chamberlain, "was rather a dangerous question, and it would be more dangerous for the Foreign Secretary to answer it." However, Sir Austen was at least quite sure that no nation was arming against us. On the contrary, there was "not a nation on the Continent of Europe" which would not like to see the British army and navy bigger and better all round. As a comprehensive testimonial to our own ineffable goodness amid a naughty world this leaves nothing to be desired.

"No, no, no," it seems, does not wish more power to our strong right arm. Is it not, then, a little curious that they do not all give little to this wish? By reducing their own armaments they would increase ours. What could be simpler?—Manchester Guardian.

Willing To Assist

Virginia Hotel Clerk Wanted To Prove Efficiency Of Service

To The Ladies of Lacombe and District
Mrs. Calquhoun, representative of the Wabasso Manufacturing Co., will be at our store from June 23rd to June 25th, for the purpose of demonstrating the many uses to which Wabasso Products can be advantageously put in the home, and the great economy in using them. We invite you to attend this demonstration.

Wabasso Cotton—Canada's Best
Nainsooks, Cambries, Madapolams, Bridal Cloths; Long Cloths, Sheets, Pillow Cases, Sheeting. Made from selected long staple cottons of perfect construction, bleached in spring water and guaranteed absolutely pure.

Wacosilke
Made from Wabasso Combed Yarns and Celanese Brand Yarns. Pretty as the rainbow. Will not shrink, fade, pull or sag.

Wabasso Lawns, Voiles, Organdies, India Linens
All have the Wabasso guarantee of absolute purity.

Wabasso Printed Silks
Beautiful patterns in shades as pretty as the rainbow. These are guaranteed tub fast too. 36 in. wide. 45c. to 75c. yard

Wabasso Silks in Self Colors
And in many shades and fast to washing. 35c. to 60c. per yard

Fast Color Broadcloths and Suitings
In white and pleasing shades. Wabasso Brands for purity. 25c. and 40c. yard

Cattlemen Hold Field Day

Success of a new venture in Lacombe district, finishing of red label baby beef for the British market out of surplus calves from southern Alberta ranches, was acclaimed Friday at the first Fielder's day ever held here. A tour of the district was made under the auspices of the board of trade and inspection of the board of trade and inspection of the respective farms of the district by 250 people, for the conveyance of which 60 autos were pressed into use.

There was concrete evidence that Lacombe, long known as one of the outstanding districts of Canada in the breeding of pure-bred cattle, had added to its mixed farming activities the intensive feeding of beef cattle, and with profit. The crowd heard from Charles Abbott that through fattening 100 Hereford heifers from the McIntyre ranch at Magrath, he had found "sale" for \$14,000 worth of feed at current market prices right on his own farm and besides had \$500 for his trouble, according to a weigh-up made on Thursday.

Most of the stock was supplied by the Red Label Beef Growers association under a district contract by which the farmers were guaranteed a minimum price of 6c. per pound on every pound of weight added while on the feed lots. However, on the farm of Alfred Day there was seen a lot of 42 animals which had been purchased outright with their dams last August. They had made remarkable gains on dry grain in a boarded corral without a roof over their head all winter. One expert valued these yearling at \$50 per head, on current market prices. A full day was devoted to the tour of inspection and brief speeches were made by government representatives, livestock officials, ranchers and farmers. The day opened at the Dominion experimental farm where the livestock was inspected. A barbecue beef dinner was served on the beautiful lawn of the Charles Abbott farm, and moving pictures of the beef cattle industry on Alberta ranches, feed lots and overseas were shown at night in the theatre by W. H. McIntyre, of Magrath.

When speeches followed the picnic dinner, Hon. Irene Parby, on behalf of the government expressed gratification that success was attending efforts to finish, within the province, surplus ranch cattle and hoped the movement would grow.

H. A. Craig, deputy minister of agriculture, congratulated the district on going into the finishing of cattle on a large scale.

George DeLong, president of the board of trade, who was master of ceremonies for the day, introduced "the men behind the beef fatten-

ing scheme," S. Henderson, Henry Trame, who heads the agricultural society, P. A. Switzer, master farmer, and Charles Abbott.

As the lot of white-faced yearlings were inspected, the feeder, Mr. Abbott gave details of rations and answered many questions. Mr. McIntyre, the breeder, said the calves were all purchased and now 12 months old. The fact that right after weaning in November, they were dehorned, vaccinated and on the same day driven 15 miles from the ranch to railway and had to suffer a hard two-day train journey, handicapped feeders so far north on their start.

George Ross, the "flying rancher" of Milk River, who supplied several feed lots in the district, arrived by aeroplane. He told the feeders that at the present time he was selling finished yearlings for British export markets at \$8 per cwt. Buyers paid all freight but required Winnipeg weights which occasioned a slight shrink.

Alberta had already proven its ability to produce finished beef, of the finest quality for export markets overseas, declared J. P. Sackville, professor of animal husbandry, University of Alberta. To develop and hold the British beef market, which was a wide open field with imports of \$130,000,000 in 1930, volume was required along with quality. This was a good argument in favor of feeding more cattle in the west.

"Lacombe district has the surplus feed grain and the greenfeed here and this is the logical place to finish cattle," declared Frank H. Reed, experimental farm superintendent. Mr. Reed said that while southern feeders had the advantage of alfalfa, it could be grown satisfactorily in central Alberta and there are now 10,000 acres under this high protein fodder within a radius of 25 miles of Lacombe.

Other feed lots visited were on the farms of Leslie Pearce who was feeding 20 of Ross ranch heifers, William Meldrum who was handling 129 Hereford steers from the McIntyre ranch, Alfred Day who purchased his supply from the McIntyre ranch at Milk River, and Wilson Bros.' farm.

That well finished cattle are in demand and not all will be exported was evident when it was learned that 62 head of baby beef from the feed lots of Alfred Day and L. Pearce, had been purchased by A. Sales, of the Union Packing company, Calgary, for the T. Eaton company Emporium, whose head meat buyer, M. Morrow was making the tour.

Feeders reported a daily consumption of grain of about 13½ to 15½ pounds per head, with average gains of two pounds on each animal. Others who spoke at the feed pens included E. Ward Jones, Calgary, Canadian Pacific Railway Company; Wilbur McKenzie, Lethbridge, manager of Southern Alberta co-operative and K. Rasmussen, Lethbridge

"SOOKY"
Playing at the Avalon Theatre, this week. Jackie Cooper and Robert Coogan together again. Kids speak the language everybody understands—they do the things that everybody loves—so real you'll want to cheer them; so entertaining you will want to see them again and again—featuring the screen's big little stars.
Coming L. Barrymore and Elissa Landi in "Yellow Ticket," June 23, 24, and 25.
Marlene Dietrich in Shanghai
Express June 30, July 1 and 2.

NEWSPAPERS GETTING WISED UP

The Western Globe is pleased to note that other newspapers in Canada are getting wised up to the Ku Klux Klan racket, of which organization J. J. Maloney, the "Ex-Cleric" is the head push for Alberta. The last issue of "Hush," Toronto, a newspaper that declares itself out to expose all kinds of crookedness, moral or financial, has the following interesting item in its last issue: "Check This One Up!" Have you heard of the new racket in Edmonton which has been in force since September, known as the Ku Klux Klan? All you have to do is: Men pay \$13.00 and women \$6.50; then keep your mouth shut. Don't dare to ask about the financial standing of the movement or you will be banished. Just sit down, look wise it only costs \$13.00. J. J. Maloney is Chief Nabob and Harold Wright is Financial Counsel. J. H. Whig is Chief Klucker with the women
